

## **UKWAS 5 REVISION: KEY STAKEHOLDERS**

A stakeholder identification exercise is held at the outset of the review and revision process.

The key stakeholders identified are listed below. It was agreed that the best means to reach key stakeholders was by direct emailing. In addition, the various stakeholder organisations were expected to communicate directly with their members and additional promulgation was achieved through the trade press. No constraints to stakeholder participation were identified. This approach proved successful with a record number of consultation responses being received from a broad range of stakeholder interests.

N.B. Only organisations are listed here. Individual stakeholders are excluded from the list for data protection reasons.

### **Woodland owner, forestry practitioner, land-use & wood processing industry organisations**

Confederation of Forest Industries (Confor)

Country Land & Business Association (CLA)

Forest Industry Safety Accord (FISA)

Institute of Chartered Foresters (ICF)
